

# City of Flagstaff

## Applicant's Authorization, Understanding and Agreement

---

My signature below authorizes the City of Flagstaff Sustainable Homes Program Staff, contractors and crew to enter my home as needed to perform approved Flagstaff Residential Energy Efficiency Program work. My signature verifies this residence is not currently for sale, nor is it designated for acquisition or clearance (foreclosure) by federal, state or local programs. Upon completion of work, I give permission for the contractor, sub-contractor, staff, local, state, and federal officials to inspect said work.

Materials are covered by manufacturers' warranties only. My signature below authorizes the City of Flagstaff and its designees to inspect heating, fuel usage and utility billing records for up to 5 years before and after completion of work and authorize pertinent utility and fuel companies to make such records available to them solely for obtaining data for evaluation of subsequent energy conservation effectiveness. I agree, on behalf and for all who stand in my stead, that the City of Flagstaff Residential Energy Efficiency Program, contractors and crew, its sub grantees and their governing bodies, will not be held liable for any injury or expense incurred by me while participating in this program.

I am aware that if Flagstaff Residential Energy Efficiency Program staff, contractors and/or crew enter my home and it is deemed unsafe for any reason and at any time, work on my home will cease. Flagstaff Residential Energy Efficiency Program work will not continue until I personally bring my home to safe conditions. Flagstaff Sustainable Homes Program will not assist in work associated with bringing my home to eligible status. I am also aware that Flagstaff Residential Energy Efficiency Program providers may be required to call Fire, Law Enforcement and/or Emergency Medical services, if hazardous conditions exist.

In order for the City to measure, track and report on the Residential Energy Efficiency Program, it is required that the applicant register with Visible Energy Inc., a local company dedicated to making the world's energy use visible in a way that empowers homeowners, schools, and businesses to change their energy use to save money, reduce their carbon footprint and increase energy security.

Visible Energy is committed to protecting your privacy. Access to your registration information and your personal data is strictly restricted to Visible Energy employees and contractors, as needed, in order to operate, develop or improve the service. These individuals are bound by confidentiality obligations. Visible Energy limits the collection and use of personal information. Your registration information is kept private. Account information from your utility companies is only seen by you. Visible Energy does not sell, rent or disclose your personal account information to anyone, for any reason, at any time.

If I move from the above address or have any changes in household income or size I will inform the City of Flagstaff Sustainable Homes Program staff before receiving energy efficiency work or within 30 days, whichever is sooner. I attest that the income and household information is accurate and complete. I accept responsibility for paying for services received based on my household's annual gross income. I authorize the release of income and benefits information to the City of Flagstaff to document my applicable service fees. If income verification proves inaccurate, I agree to pay accurate fees for services based on accurate household income.

**My signature below indicates that I have read, understood and agreed to the statements on both the front and back of this agreement.**
